Passed the Senate August 31, 1999

Secretary of the Senate

Passed the Assembly August 26, 1999

Chief Clerk of the Assembly

This bill was received by the Governor this _____ day
of _____, 1999, at _____ o'clock ____M.

Private Secretary of the Governor

└

CHAPTER _____

An act to amend Sections 20001 and 23612 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

LEGISLATIVE COUNSEL'S DIGEST

SB 1282, Lewis. Vehicles: violations.

(1) Existing law requires the driver of any vehicle involved in an accident resulting in injury or death to another person to immediately stop the vehicle at the scene of the accident and to fulfill specified requirements.

Under existing law, a violation of this provision is punishable as either a felony or a misdemeanor if the violation results in death or permanent, serious injury.

This bill would recast this provision to make a violation of this provision either a felony or a misdemeanor if the accident in which the driver was involved, rather than the failure to immediately stop the vehicle at the scene of the accident and fulfill specified duties, results in death or permanent, serious injury.

(2) Under existing law, if a person submitted to a blood or urine test in connection with a lawful arrest involving an alleged driving-under-the-influence violation, the peace officer is required to forward the results of that test to the appropriate forensic laboratory, and, in turn, the forensic laboratory is required to forward the results to the Department of Motor Vehicles.

This bill would provide that any document containing data prepared and maintained in the governmental forensic laboratory computerized data base system that is electronically transmitted or retrieved through public or private computer networks to or by the department is the best available evidence of the chemical test results in all administrative proceedings conducted by the department. The bill provide that, in order to be admissible as evidence in an administrative proceeding, a document described in this paragraph shall bear a certification by the employee of the department who

retrieved the document certifying that the information was received or retrieved directly from the computerized data base system of a governmental forensic laboratory and that the document accurately reflects the data received or retrieved. This bill would provide that the failure of an employee to certify in accordance with the requirements of this paragraph is not a public offense.

The bill would make a conforming change in this provision to reflect other provisions enacted in 1998 regarding driving under the influence.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

The people of the State of California do enact as follows:

SECTION 1. Section 20001 of the Vehicle Code is amended to read:

20001. (a) The driver of any vehicle involved in an accident resulting in injury to any person, other than himself or herself, or in the death of any person shall immediately stop the vehicle at the scene of the accident and shall fulfill the requirements of Sections 20003 and 20004.

(b) (1) Except as provided in paragraph (2), any person who violates subdivision (a) shall be punished by imprisonment in the state prison, or in a county jail for not more than one year, or by a fine of not less than one thousand dollars (\$1,000) nor more than ten thousand dollars (\$10,000), or by both that imprisonment and fine.

(2) If the accident described in subdivision (a) results in death or permanent, serious injury, any person who violates subdivision (a) shall be punished by imprisonment in the state prison for two, three, or four years, or in a county jail for not less than 90 days nor more than one year, or by a fine of not less than one thousand dollars (\$1,000) nor more than ten thousand dollars (\$10,000), or by both that imprisonment and fine. However, the court, in the interests of justice and for

reasons stated in the record, may reduce or eliminate the minimum imprisonment required by this paragraph.

(3) In imposing the minimum fine required by this subdivision, the court shall take into consideration the defendant's ability to pay the fine and, in the interests of justice and for reasons stated in the record, may reduce the amount of that minimum fine to less than the amount otherwise required by this subdivision.

(c) A person who flees the scene of the crime after committing a violation of Section 191.5 of, paragraph (1) or (3) of subdivision (c) of Section 192 of, or subdivision (a) or (c) of Section 192.5 of, the Penal Code, upon conviction of any of those sections, in addition and consecutive to the punishment prescribed, shall be punished by an additional term of imprisonment of five years in the state prison. This additional term shall not be imposed unless the allegation is charged in the accusatory pleading and admitted by the defendant or found to be true by the trier of fact. The court shall not strike a finding that brings a person within the provisions of this subdivision or an allegation made pursuant to this subdivision.

(d) As used in this section, "permanent, serious injury" means the loss or permanent impairment of function of any bodily member or organ.

SEC. 2. Section 23612 of the Vehicle Code is amended to read:

23612. (a) (1) (A) Any person who drives a motor vehicle is deemed to have given his or her consent to chemical testing of his or her blood or breath for the purpose of determining the alcoholic content of his or her blood, if lawfully arrested for any offense allegedly committed in violation of Section 23140, 23152, or 23153. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) Any person who drives a motor vehicle is deemed to have given his or her consent to chemical testing of his or her blood or urine for the purpose of determining the drug content of his or her blood, if lawfully arrested for

any offense allegedly committed in violation of Section 23140, 23152, or 23153.

(C) The testing shall be incidental to a lawful arrest and administered at the direction of a peace officer having reasonable cause to believe the person was driving a motor vehicle in violation of Section 23140, 23152, or 23153.

(D) The person shall be told that his or her failure to submit to, or the failure to complete, the required chemical testing will result in a fine, mandatory imprisonment if the person is convicted of a violation of Section 23152 or 23153, and (i) the suspension of the person's privilege to operate a motor vehicle for a period of one year, (ii) the revocation of the person's privilege to operate a motor vehicle for a period of two years if the refusal occurs within seven years of a separate violation of Section 23103 as specified in Section 23103.5, or of Section 23140, 23152, or 23153, or of Section 191.5 or paragraph (3) of subdivision (c) of Section 192 of the Penal Code that resulted in a conviction, or if the person's privilege to operate a motor vehicle has been suspended or revoked pursuant to Section 13353, 13353.1, or 13353.2 for an offense that occurred on a separate occasion, or (iii) the revocation of the person's privilege to operate a motor vehicle for a period of three years if the refusal occurs within seven years of two or more separate violations of Section 23103 as specified in Section 23103.5, or of Section 23140, 23152, or 23153, or of Section 191.5 or paragraph (3) of subdivision (c) of Section 192 of the Penal Code, or any combination thereof, that resulted in convictions, or if the person's privilege to operate a motor vehicle has been suspended or revoked two or more times pursuant to Section 13353, 13353.1, or 13353.2 for offenses that occurred on separate occasions, or if there is any combination of those convictions or administrative suspensions or revocations.

(2) (A) If the person is lawfully arrested for driving under the influence of an alcoholic beverage, the person has the choice of whether the test shall be of his or her blood or breath and the officer shall advise the person that

he or she has that choice. If the person arrested either is incapable, or states that he or she is incapable, of completing the chosen test, the person shall submit to the remaining test. If a blood or breath test, or both, are unavailable, then paragraph (2) of subdivision (d) applies.

(B) If the person is lawfully arrested for driving under the influence of any drug or the combined influence of an alcoholic beverage and any drug, the person has the choice of whether the test shall be of his or her blood, breath, or urine, and the officer shall advise the person that he or she has that choice.

(C) A person who chooses to submit to a breath test may also be requested to submit to a blood or urine test if the officer has reasonable cause to believe that the person was driving under the influence of any drug or the combined influence of an alcoholic beverage and any drug and if the officer has a clear indication that a blood or urine test will reveal evidence of the person being under the influence. The officer shall state in his or her report the facts upon which that belief and that clear indication are based. The person has the choice of submitting to and completing a blood or urine test, and the officer shall advise the person that he or she is required to submit to an additional test and that he or she may choose a test of either blood or urine. If the person arrested either is incapable, or states that he or she is incapable, of completing either chosen test, the person shall submit to and complete the other remaining test.

(3) If the person is lawfully arrested for an offense allegedly committed in violation of Section 23140, 23152, or 23153, and, because of the need for medical treatment, the person is first transported to a medical facility where it is not feasible to administer a particular test of, or to obtain a particular sample of, the person's blood, breath, or urine, the person has the choice of those tests that are available at the facility to which that person has been transported. In that case, the officer shall advise the person of those tests that are available at the medical

facility and that the person's choice is limited to those tests that are available.

(4) The officer shall also advise the person that he or she does not have the right to have an attorney present before stating whether he or she will submit to a test or tests, before deciding which test or tests to take, or during administration of the test or tests chosen, and that, in the event of refusal to submit to a test or tests, the refusal may be used against him or her in a court of law.

(5) Any person who is unconscious or otherwise in a condition rendering him or her incapable of refusal is deemed not to have withdrawn his or her consent and a test or tests may be administered whether or not the person is told that his or her failure to submit to, or the noncompletion of, the test or tests will result in the suspension or revocation of his or her privilege to operate a motor vehicle. Any person who is dead is deemed not to have withdrawn his or her consent and a test or tests may be administered at the direction of a peace officer.

(b) Any person who is afflicted with hemophilia is exempt from the blood test required by this section.

(c) Any person who is afflicted with a heart condition and is using an anticoagulant under the direction of a licensed physician and surgeon is exempt from the blood test required by this section.

(d) (1) A person lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle in violation of Section 23140, 23152, or 23153 may request the arresting officer to have a chemical test made of the arrested person's blood or breath for the purpose of determining the alcoholic content of that person's blood, and, if so requested, the arresting officer shall have the test performed.

(2) If a blood or breath test is not available under subparagraph (A) of paragraph (1) of subdivision (a), or under subparagraph (A) of paragraph (2) of subdivision (a), or under paragraph (1) of this subdivision, the person shall submit to the remaining test in order to determine the percent, by weight, of alcohol in the person's blood. If both the blood and breath tests are unavailable, the

person shall be deemed to have given his or her consent to chemical testing of his or her urine and shall submit to a urine test.

(e) If the person, who has been arrested for a violation of Section 23140, 23152, or 23153, refuses or fails to complete a chemical test or tests, or requests that a blood or urine test be taken, the peace officer, acting on behalf of the department, shall serve the notice of the order of suspension or revocation of the person's privilege to operate a motor vehicle personally on the arrested person. The notice shall be on a form provided by the department.

(f) If the peace officer serves the notice of the order of suspension or revocation of the person's privilege to operate a motor vehicle, the peace officer shall take possession of any driver's license issued by this state which is held by the person. The temporary driver's license shall be an endorsement on the notice of the order of suspension and shall be valid for 30 days from the date of arrest.

(g) (1) The peace officer shall immediately forward a copy of the completed notice of suspension or revocation form and any driver's license taken into possession under subdivision (f), with the report required by Section 23158.2, to the department. If the person submitted to a blood or urine test, the peace officer shall forward the results immediately to the appropriate forensic laboratory. The forensic laboratory shall forward the results of the chemical tests to the department within 15 calendar days of the date of the arrest.

(2) (A) Notwithstanding any other provision of law, any document containing data prepared and maintained in the governmental forensic laboratory computerized data base system that is electronically transmitted or retrieved through public or private computer networks to or by the department is the best available evidence of the chemical test results in all administrative proceedings conducted by the department. In order to be admissible as evidence in administrative proceedings, a document described in this subparagraph shall bear a certification

by the employee of the department who retrieved the document certifying that the information was received or retrieved directly from the computerized data base system of a governmental forensic laboratory and that the document accurately reflects the data received or retrieved.

(B) Notwithstanding any other provision of law, the failure of an employee of the department to certify under subparagraph (A) is not a public offense.

(h) A preliminary alcohol screening test that indicates the presence or concentration of alcohol based on a breath sample in order to establish reasonable cause to believe the person was driving a vehicle in violation of Section 23140, 23152, or 23153 is a field sobriety test and may be used by an officer as a further investigative tool.

(i) If the officer decides to use a preliminary alcohol screening test, the officer shall advise the person that he or she is requesting that person to take a preliminary alcohol screening test to assist the officer in determining if that person is under the influence of alcohol or drugs, or a combination of alcohol and drugs. The person's obligation to submit to a blood, breath, or urine test, as required by this section, for the purpose of determining the alcohol or drug content of that person's blood, is not satisfied by the person submitting to a preliminary alcohol screening test. The officer shall advise the person of that fact and of the person's right to refuse to take the preliminary alcohol screening test.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Department of Justice is implementing a system that electronically transmits forensic blood alcohol laboratory test results to local law enforcement and state agencies. The Department of Motor Vehicles may be precluded under current law from using electronic reports when conducting administrative hearings for driving-under-the-influence violations.

In order to avoid the possibility that the Department of Motor Vehicles may not be able to apply appropriate sanctions to the driving privileges of all persons who exceed the legal blood-alcohol limits while operating motor vehicles at the earliest possible time, it is necessary that this act take effect immediately.

Approved _____, 1999

Governor
